FURNITURE

# THE SPACES WE CREATE ARE WHO WE ARE.

Odam Furniture is a family-owned company with over 20 years of experience producing modern and uniquely designed furniture.

Prioritizing its customers' needs, Odam Furniture aims to manufacture high-quality, durable, and innovative bedroom and dining room furniture. The company's foundations were laid in 1973, with Mehmet Akyol, the father, starting a 180-square-meter lumber production facility.

In 1978, the company began manufacturing Scandinavian-style sofas. By 1988, the second generation was in charge, and furniture production began around that time. Akyol Furniture began branding in 2004, and the name Odam Furniture was adopted.

Odam Furniture Ltd., headquartered in İnegöl, Bursa, continues to operate with modern furniture production facilities and, through its dealers, delivers its new-generation furniture to customers both domestically and internationally.
